ABOUT

NAMCOR LTD.

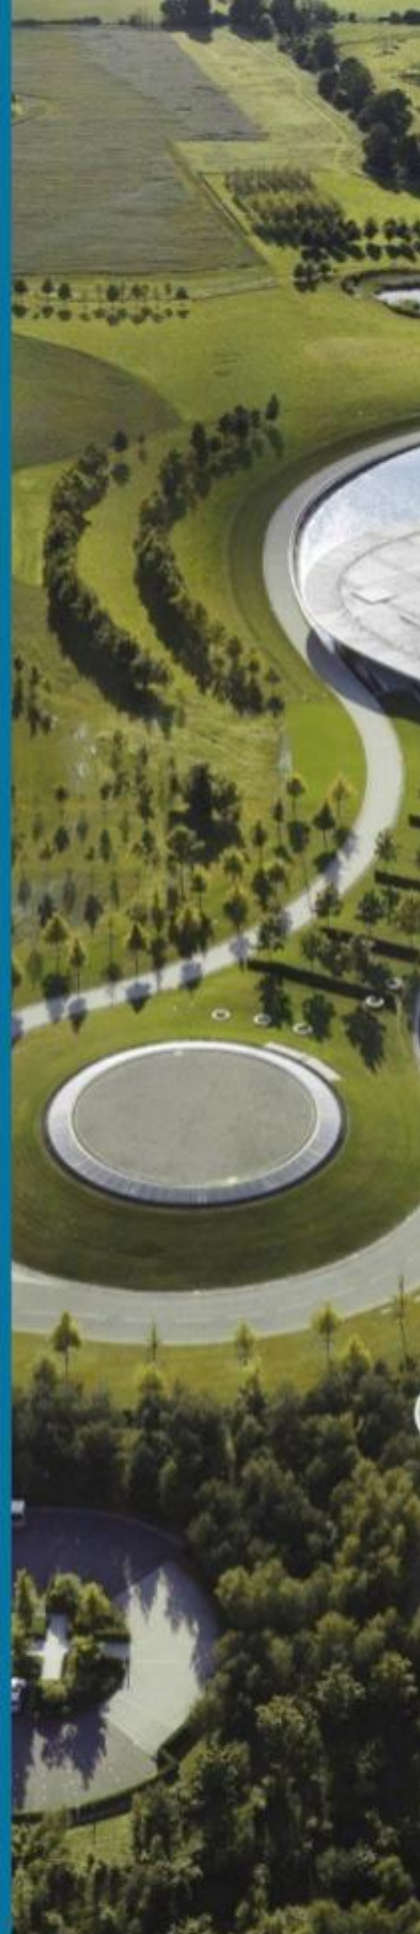

NICHOLAS ADVANCED MANUFACTURING, CONCEPTS & OPERATIONAL RESEARCH

UK-based engineering and product development company dedicated to building smart, reliable tools for real-world use. Our journey began with a simple idea: to solve everyday challenges faced by contractors and DIYers through thoughtful design and precision engineering.

NAMCOR Tools, our hardware division, is proud to introduce the GripGuard™ and GripGuardMax™ Screwdriver—innovative solutions designed to improve screw stability and control. These products reflect our commitment to durability, user-centric design, and continuous improvement.

While we're a growing company, our mission is clear: to empower professionals and enthusiasts alike with tools that go

Beyond Tomorrow™.

GRIP GUARD SERIES

SCREW STABILITY & CONTROL

Spring-loaded prongs clamp onto the screw head, preventing wobble and slippage during fastening.

Ideal for one-handed operation and precision work.

UNIVERSAL COMPATIBILITY

Fits most power drills and manual screwdrivers.

Designed for both professional and DIY use.

ADJUSTABLE LENGTH

Customizable depth for different screw sizes and applications.

Works with standard and quick-release drill chucks.

ERGONOMIC DESIGN

Designed for comfort and ease of use during extended tasks.

Lightweight construction reduces fatigue while maintaining durability.

MAXIMUM CONTROL. ZERO WOBBLE.

GripGuard™ delivers unmatched screw stability for faster, cleaner fastening.

Its patent-pending prong system clamps onto the screw head, eliminating slips and misalignment. Designed for professionals and DIYers, GripGuard works with most drills and screwdrivers, offering adjustable length and ergonomic comfort for all-day use. Built tough in the UK for precision that goes **Beyond Tomorrow™**.
